Aquaporin Liquid Facial Solutions: For Use in Liquid Facial Systems

The powerful combination of Glycolic (non buffered), Lactic and Salicylic Acids provide a deep cleanse and chemical peel. Also enriched with anti-oxidants like Vitamin E, Green Tea and humectants like Sodium Hyaluronate and Vitamin B5. Aquaporins enhance absorption of nutrients into the skin for better plumping and smoothing results.

Super hydrating solution with Hyaluronic Acid to plump the skin and give it extra glow. Rejuvenating with Ginko and Algae Extract, Ceramides III. Soothing with Cucumber, Aloe, Chamomile Extract. Protecting with Vitamin E and Green Tea. Aquaporins enhance absorption of nutrients into the skin for better plumping and smoothing results.

Aquaporin
(a' kwa-por-en)

The Perfect Chemistry for Smooth, Glowing Skin.
